Druck- und Laufrollen Pressure rollers and Cam followers

Unsere Rollen wurden speziell für die abfüllenden & verpackenden Industrien entwickelt und zeichnen sich, je nach Werkstoff, aus durch:

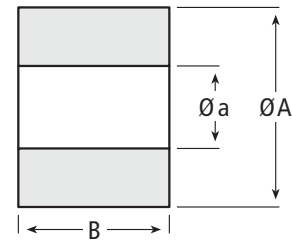

- Geringen Rollwiderstand
- Höchste Laufruhe
- Hohe Flächenpressung
- Geringe Verformung
- Gute dynamische Belastbarkeit
- Hohes Festigkeitsniveau

Our rollers are specially developed for the filling & packaging industries and stand out, depending on material, due to characteristic features such as:

- Low rolling resistance
- Silent running
- High contact pressure
- Low deformation
- Good dynamic carrying capacity
- High stability levels
